WHO WE ARE

PRINT

CGS Imaging is the leading supplier of Digitally Printed Backlit sign faces. We are known throughout the Sign Industry as the “Go-To wholesaler” when turn time just can’t be met by others. We have a state-of-the-art facility for manufacturing workflow, assuring superior quality, and lightning-fast turnaround for your sign orders. In many cases your orders are in production within 24 hours of approval.

MANUFACTURE

CGS Imaging produces all of our products using the industry-leading **Accu-Color™** printing process. This assures signs maintain a consistent tone during the day or when lit up at night, regardless of color. The **Accu-Color™** process also assures consistent color accuracy, which is why we are the preferred choice for National Program work.

We print Flexible Sign Faces up to 196” wide seamless, and provide an entire line of 1st and 2nd surface printed adhesive vinyl products.

In addition to using the **Accu-Color™** process, CGS Imaging offers the longest warranty in the Industry, up to 10 years on Flexible Sign faces. We set the standard! We ship anywhere in the USA.

WHY CHOOSE CGS IMAGING

We offer no gimmicks or “Free” services.

You will be assured: Highest Quality • Fastest Turnaround • Low Price Every Order
Regardless of a single sign or national program work.

WE DO IT BETTER FOR LESS

A FEW OF THE BRANDS THAT TRUST CGS IMAGING TO BE YOUR
WARRANTIED GRAPHICS MANUFACTURER

BACKLIT APPLICATIONS MAKE YOUR BRAND VISIBLE AT ALL HOURS

FLEXFACE BACKLIT SIGNAGE // BEST WESTERN HOTELS

FLEXFACE BACKLIT SIGNAGE // KFC

FLEXFACE BACKLIT SIGNAGE // CHECKERS

FLEXFACE BACKLIT SIGNAGE // ALDI SUPERMARKETS

ACCU-COLOR™ SOLUTIONS FOR BACKLIT APPLICATIONS

Take the Accu-Color™ Challenge!

Our Accu-Color™ printing process allows brilliant color in backlit applications, as opposed to standard printing which washes out images when lit.

Request your sample of this image and see for yourself! Place image over any light source to see how color retains its brilliance.

Accu-Color™ Print

Standard Print

WHAT WE DO

Grand Format Printing

Environmental Graphics • Fabric & Vinyl Banners • Billboards • Wall Murals • Stair Graphics

Grand format printing takes your design beyond the limits of standard wide format. Our presses can seamlessly print up to 17 feet wide by over 150 feet in length. Incorporate our invis-seam welding capabilities, and your image can cover practically any surface area.

Vehicle Graphics

Fleet Graphics • Vehicle Wraps • Racing Graphics • Vinyl Lettering

Vehicle graphics are the most economical, high impact form of advertising available. Fleet and vehicle graphics boost brand awareness, increase company visibility, and spread your marketing message across your region.

Display Solutions

Retail Signage • Point-Of-Purchase Displays • Banner Stands • Truss Systems • Tabletop Displays

CGS provides a wide range of rigid and fabric print solutions, as well as design and fabrication services, to meet your particular needs.

Event Graphics

Stage & Event Mesh • Wayfinding • Floor Graphics • Tent Signs • Crowd Barriers

Providing display solutions is just the beginning. CGS offers environmental graphic solutions that merge event and venue into an all-encompassing experience.

Dimensional & Custom Signage

Back Lit • Translucent • Pole Banners • Window Graphics • PVC • Metal • OEM Decals

Whether you are looking for an illuminated exterior site sign for your business, a three-dimensional sign for your reception area, or a mass quantity of yard signs to advertise your event, CGS has the equipment and skills necessary to produce it.

Custom Design

Unsure how to make your display dreams a reality? We employ talented graphic artists, skilled finishers, and certified installers to insure – from start to finish – you get exactly what you are looking for.
